

# The Hunger

## Fireflight

Cut it out, cut it out  
I know it? s what you? re wanting to say  
Burning up, burning up  
I know why you? re feeling this way There? s an ache you can? t erase  
A yearning that you can? t replace And you want Him, and you need Him  
But you act like He? s not there  
Yeah, you know that you? re hollow  
And something? s missing here  
So you push and you pull the hole in your soul  
But you can? t make the hunger disappear You got a rusted out lock on your door  
Getting ready to break  
You? ve held back love long enough  
I think it? s time to cave  
You? re waiting for a sign  
The fact is faith is blind And you want Him, and you need Him  
But you act like He? s not there  
Yeah, you know that you? re hollow  
And something? s missing here  
So you push and you pull the hole in your soul  
But you can? t make the hunger disappear Do you wanna spend your whole life jaded?  
Stuck in a rut that you created  
Why don? t you break the cycle?  
Let love win 'Cause you want Him, and you need Him  
But you act like He? s not there  
Yeah, you know that you? re hollow  
And something? s missing here  
And you want Him, and you need Him  
But you act like He? s not there  
Yeah, you know that you? re hollow  
And something? s missing here  
So you push and you pull the hole in your soul  
But you can? t make the hunger disappear
