

I Want You

Huxley

i want you
you aint gotta wonder, i can bring the summer
i want you
you can hold me baby
aint no its or maybes
i want you
we can let them talk
dont care what they say
never get my love Never get my love like you got it babe
I want you
Whisper lies heard a 1000 times But our word don't mind
Our loves a different kind
I want you
You aint got to wonder
I can bring the summer
Hold me baby lover
I want you
You can hold me baby ain't no ifs or maybes
You gonna drive me crazy
I want you
We can let them talk don't care what they say
Never get my love like you got it babe
I want you
Whisper lies heard a 1000 times But our word don't mind
Our loves a different kind
I want you
