Untouchable

Tritonal & Cash Cash

We've been wondering in the dark A million miles apart Going nowhere Believe that even if we're lost You know it won't be long 'til we get thereSpinning around no control Burning down I'm letting go We've been wondering in the dark When no matter where are Just rememberWe rise and we fall We'll stay We'll stay untouchable Yeah, after it all We'll stay We'll stay untouchable Time is slipping through our hands We're sinking in the sand to forever Lie, surrender to the dark But we could make a spark here togetherHanging on by a thread We will climb back again Time is slipping through our hands It's hard to understand But rememberWe rise and we fall We'll stay We'll stay untouchable Yeah, after it all We'll stay We'll stay untouchable We rise and we fall We'll stay We'll stay untouchable Yeah, after it all We'll stay We'll stay untouchableWe'll stay We'll stay untouchableWe'll stay We'll stay untouchable We'll stay We'll stay untouchable Song Discussions is protected by U.S. Patent 9401941. Other patents pending.
