round and round we go
where we gota stop nobody's gota know
round and round we go
where we gota stop nobody's gota know
will be a fool for you, baby
if you want me to
i will never lie
never cheat on you
trust in me girl
all the things that u do
i wanna make sweet love to u
round and round we go
where we gota stop nobody's gota know
round and round we go
where we gota stop nobody's gota know
say nobody's gota know
will be your puppet on a string
you can handle me
girl wont u lay ur body down
right here next to me? touch me where you want to
and ill touch you back
ill leave everything to u
cause i know u like it like that
round and round we go
where we gota stop nobody's gota know
round and round we go
where we gota stop nobody's gota know
round and round we go
where we gota stop nobody's gota know
round and round we go
where we gota stop nobody's gota know
round and round
round and round
