

Here Goes Something

Nada Surf

Look around, what a mess
Anybody's guess
Here goes something
Yeah here goes something
Now change programs
Here goes something Gravity's, big success
No one's taken off yet
Changing speeds, What a ride Stir up your insides
Your majesty
Your majesty
Your majesty
Where we mean
Chasing light, dawn to bed
It came to me instead
Chasing light, dawn to bed
It came to me instead
