You Come First

Jacob Latimore

Put you on a pedestal
Take you real high
I love to see my lady and the way she reactwhen i keep her satisfied
Not to stroke my ego
But i do it well
Plus she does it better
when i get her to the point
where she forget to exhale
Baby girl
You gon' always get every part of me
Nothing else
Even matters if your rivers flowin' babe
Trust me girl
When it all falls down
We keep it goin
Cant help it baby,
Just gotta be unselfish lady.
And make sure that
You come first
You gon' understand girl as long as im your man
You gone always come first
Show you I ain't playin' baby
Listen what im sayin
you gone always come first
Wherever you want to go
Baby I'll take you there
But imma take the scenic route
girl im about to show you aint no playing games here
Give you that inception
Get all in your brain
And hit you with the dream
til you hit that falsetto
aint no way of escape.
Baby girl
You always gon' get every part of me
Nothing else
Even matters if your rivers flowin' babe
Trust me girl
When it all falls down
We keep it goin
Cant help it baby,
Just gotta be unselfish lady.

And make sure that
You come first
You gon' understand girl as long as im your man
You gone always come first
Show you I ain't playin' baby
Listen what im sayin
you gone always come first
Its all about you girl
I dont mind coming in second
imma let you take the lead girl
Every time and its no question
you gon get everything you need
Baby i aim to please
long as youre here with me
Baby girl
You gon' always get every part of me
Nothing else
Even matters if your rivers flowin' babe
Trust me girl
When it all falls down
We keep it goin
Cant help it baby,
Just gotta be unselfish lady.
And make sure that
You come first
You gon' understand girl as long as im your man
You gone always come first
Show you I ain't playin' baby
Listen what im sayin
you gone always come x3
