## **Young Rivals**

## **Night Drive**

Into the white light Coming up fast again Into the face we can't pretend, You can't pretend. Keeping the mind's eye, Tryina hold on through the storm Going alone 'till you can't go on, You can't go on. And wherever you go, Your rhythm calling! And wherever you go There's new young rival Waiting in the wind Wanting you to notice When the new young rival play Many can became Feel the wave wash over me Ooh oh, and you have to defend it Knowing you've come so far Feeling the pulse as the race goes on, The race goes on Waving the night out, like you've done before Going alone 'till you can't go on, You can't go on. And wherever you go, Your rhythm calling And forever you go! There's new young rival Waiting in the wind Wanting you to notice As the new young rival play Many can became Feel the wave wash over me Ooh oh oh oh Fear the rivals Ooh oh oh oh Fear the rivals Ooh oh oh oh Fear the rivals

> Ooh oh oh oh Fear the rivals Ooh oh oh oh Fear the rivals Ooh oh oh oh

Fear the rivals Ooh oh oh oh Fear the rivals
