

Keep This Place Beautiful

Brick + Mortar

Try, and promise you will.
I will not go if you're still here.
The truth is so depressing.
I will not go, if you're still here. One day I will be dead, I will be dust, keep this place beautiful.
Some day when we grow up, tell them I said, keep this place beautiful.
Will you promise me that, promise you will keep this place beautiful?
Some day when we grow up, tell them I said. We could get high, we could get high.
We could have all the good things if we just try.
Or we could change the world, yeah we could change the world.
We could turn all the bad things into good things if we just try.
Keep this place beautiful. Look at you, you're how the wind blows.
Remember you know just what the world needs.
And we may never know just how the wind blows.
Remember you know just what the world needs. We could get high, we could get high.
We could have all the good things if we just try.
Or we could change the world, yeah we could change the world.
We could turn all the bad things into good things if we just try, try, try.
Keep this place beautiful. We could get high, we could get high.
We could turn all the good things into bad things if we don't try.
Or we could change the world, yeah we could change the world.
We could turn all the bad things into good things if we just grow, try. Keep this place beautiful.
