

We

Rae Sremmurd

Yeah, word, yeah You grab the Ciroc, you grab the Henny
We just walked in the building
You grab the Ace, you grab the Remy
We just fucked up the party
We brought hoes to the party
We fuck bad bitches only
We brought drugs to the party
We just fucked up the party
She had the nerve to tell me spill the beeeaanns
So she could grab one or two
I'm a money making machiinnne
Simon says get your shit together
Do I got girls in here for me? Yessir!
Is the set in here for me? Yessir!
Ole Giuseppe stepping motherfucker
Two girls in wonderland, blowing smoke on one another
And they talking brand spanking new
Boy I got the sauce, fuck yo juice (woo woo)
We killed that swag shit in '93
Now we got yo whole set body rocking
You grab the Ciroc, you grab the Henny
We just walked in the building
You grab the Ace, you grab the Remy
We just fucked up the party
We brought hoes to the party
We fuck bad bitches only
We brought drugs to the party
We just fucked up the party Look who showed up to crash the party
Too many cars for valet parking
Twenty cars deep, we at the party
Bad bitches only, no local thotties
We like the girls who go to college
We let em drink up all the vodka
Popped a bean, she's talking proper
Got so high, I almost lost her
Fell off in the party drunk before it even started
This the life we chose, drugs, money, models, bottles
Woo! I'm that Remy drinking motherfucker
Pop the cork and let it bubble, let me fill yo cup up
Girls kissing girls, and they kissing Jimmy
You not in my section, can you mind your fucking business
Who gon be my driver when I hit the freeway?

I grab the styrofoam and mix it like a DJ
You grab the Ciroc, you grab the Henny
We just walked in the building
You grab the Ace, you grab the Remy
We just fucked up the party
We brought hoes to the party
We fuck bad bitches only
We brought drugs to the party
We just fucked up the party
