

Night Time Magic

Larry Gatlin & The Gatlin Brothers

Night time magic woman got a hold on me
Night and day I pray that your magic won't let me be
I'm a prisoner of love and I never want to be set free I was crazy and you magic healed me
I was empty and you magic filled me
I was wondering and your magic found me
I was lonely, lonely and you wrapped your magic loving around me
You wrapped your magic loving around me Night time magic woman got a hold on me
Night and day I pray that your magic won't let me be
I'm a prisoner of love and I never want to be set free
I never want to be set free
Night time magic woman got a hold on me
