

# Paint This House

## Brandy

I ain't even close to leaving this house  
There's still so many rooms left to cover  
And there ain't no reason for you to ever be without  
Memories of me and my love And I want these stairs, those walls  
kitchen counters, and those chairs  
To remind you of how good it feels  
And all of these floors and ceilings  
and every hallway (yeah)  
Not and inch will go untouched  
Lets paint this house with our love (our love) I'll just lay while you stroke, you putting it down  
Damn you showing all your colors  
The wildest thoughts are provoking  
Its like you're in my head right now (now, my head)  
Cause you know me like no other And I want these stairs, those walls  
kitchen counters, and those chairs  
To remind you of how good it feels  
And all of these floors and ceilings  
and every hallway (yeah)  
Not and inch will go untouched Lets paint this house with our love (our love)  
Our love  
Love oh oh  
Ooh ooh  
Cancel the decorator  
We don't need no help  
You'll pick out the colors  
We'll clean up the mess later  
We do it so well  
Loving one another  
In the closet  
On the Facets  
In the balconies  
Anywhere you are inside this house  
You'll, think of me yeah yeah yeah And I want these stairs (stairs), those walls  
kitchen counters, and those chairs (those chairs)  
To remind you of how good it feels (good it feels)  
And all of these floors and ceilings (floors and ceilings)  
and every hallway (yeah yeah yeah)  
Not and inch will go untouched Lets paint this house with our love (our love)  
Our Love (our love)  
Let's Paint this house with our love (love)  
Let's paint this house with our love (our love)
