

Refused Are Fucking Dead

Refused

Beyond ability & control we could be weekend lovers
Steal a sentence and make a catch phrase parole for our revolution
Whispered all across the street about the, about the new cool call
Or screamed at your face like a scabs payroll
Faces like angels, licking our fingertips
We don't have the patience to deal with it
With battered bodies & puckered lips
We don't have the patience to deal with it
A naive young secret for the new romantics
We express ourselves in loud & fashionable ways
A naive young secret for the new romantics
We express ourselves in loud & fashionable ways
Faces like angels, licking our fingertips
We don't have the patience to deal with it
With battered bodies & puckered lips
We don't have the patience to deal with it. Yeah!
Get down, get down. Can I get a witness? Oh!
This I gotta see
Bring it in! Bring it in! Bring it in!
One more time for me. Yeah!
Gotta get away from this town
Bring it in! Bring it in! Bring it in!
One more time for me. Go!
We don't have the patience
We don't have the patience
We don't have the patience
We don't have the patience.
Yeah!
Get down
Listen to him
A naive young secret for the new romantics
We express ourselves in loud & fashionable ways
A naive young secret for the new romantics
We express ourselves in loud & fashionable ways
A naive young secret for the new romantics
We express ourselves in loud & fashionable ways
A naive young secret for the new romantics
We express ourselves in loud & fashionable ways
