

Chase This Light

Jimmy Eat World

I'm a suspect, I'm a traitor
I'm only here in body visiting
Yellow faces and the distant screams
The beauty is in what isn't said
I'm rising to my feet Because tonight, the world turned in me
Because right now, I don't dare to breathe
Oh, babe, I know
It's alive, and somewhere for us to find tonight
Chase this light with me
My gesso, my last call
My life is yours in your gifted hands
Confetti rainfall and the quiet street
These things I've found are special now
The knot is in my reach Because tonight, the world turned in me
Because right now, I don't dare to breathe
Oh, babe, I know
It's alive and somewhere for us to find tonight
Chase this light with me Movie still-photograph
Through a martyr's eyes I can see
I've seen the best of love, the best of hate, the best reward is earned
And I've paid for every single word I ever said Confetti rainfall in the quiet streets
The beauty is in what you make it
So get up on your feet
Because tonight, the world turned in me
Because right now, I don't dare to breathe
Oh, babe, I know
It's alive and somewhere for us to find tonight
Chase this light with me Oh, babe, I know
It's alive and somewhere for us to find tonight
Chase this light with me
