

A-List (Preditah Remix)

WSTRN

I wanna know
I wanna know, wanna know what your name is
Put you in a song, make you A-List
You could be the one to say ooh
I wanna know
Why you acting like you don't know what your name is
You been tryna fight it for ages
What your name is, I'mma make you say ooh I wanna know what your name is
And what your name means
We got a lot of time on the 18s
We can live our life in the mainstream
I ain't tryna click clack, hit that
I'm tryna hit that, big back, big fat
Sweet tunes give me big plaques
Fits that, tell the truth baby
Switch that, will back, big bang baby
Cut style on 'em, you know I'm the man baby
So I gotta send a shoutout to my fans baby
You know what I'm on, put you in a song
Doin' what I can, so I can't go wrong
I told you, my name's Akelle, tell me yours baby
We can go home, I know yours baby
You know I make you go oh
I wanna know
I wanna know, wanna know what your name is
Put you in a song, make you A-List
You could be the one to say ooh
I wanna know
Why you acting like you don't know what your name is
You been tryna fight it for ages
What your name is, I'mma make you say ooh Baby, tell me why you trippin'
I'm diggin' your style
We've been lookin' for a while
No pressure
Just wanna know what your name is
I told you mine is Haile baby
Come and shake it
I show you what you missin' while you listenin'
Better picture you and me, we kickin' it
In the 3, we just in our zone, yeah yeah yeah
Take you to the west end of the city, where it's made
Oh my, don't lie

Oh my, no lie
If I'm bein' honest, I want more than your name
See them niggas over there, we ain't the same
Oh my, don't lie
Oh my, don't lie
Baby, all you gotta do is lead the way
I'll make you say oh
I wanna know
I wanna know, wanna know what your name is
Put you in a song, make you A-List
You could be the one to say ooh
I wanna know
Why you acting like you don't know what your name is
You been tryna fight it for ages
What your name is, I'mma make you say ooh
I wanna know your name
I wanna know your name
I wanna know your name
I wanna know your name
Look, I seen you round the way
I'm tryna build the coffin just to confiscate your brain
Take a higher word to messiah, meh, I don't know your name
I want you on your back, how you know I like your face
So mama, come on, groove with me, ooh missy
Competition should be choosing me, you in the E
I ain't nice at lassy, I, highly I can deny bills
I'm tanner than I, badness at back of my mind
So come on, walk with me, talk with me
Intuition into tall cities, now it's more silly
Got the ex girl callin' me, but it's poor really
Cause it's always fallin' short with me, that's sure really
So won't you, take a stroll with me girl?
I could put you fast asleep girl
And I can make you scream
I make you say oh
I wanna know
I wanna know, wanna know what your name is
Put you in a song, make you A-List
You could be the one to say ooh
I wanna know
Why you acting like you don't know what your name is
You been tryna fight it for ages
What your name is, I'mma make you say ooh
I wanna know your name
I wanna know your name
I wanna know your name
I wanna know your name
