

Stranger

070 Shake

[Intro]

Designer bitch, yeah
Hope you know you signing
Night and day, fuck 'bout what time it is
This won't get you high, don't ask me why I'm trying it
Designer bitch
She just want the finer things
Night and day, every day
Give a fuck about what time it is
This won't get you high so don't you ask me why I'm trying it
Designer bitch
Night and day, every day
Give a fuck about what time it is
This won't get you high so don't you ask me why I'm trying it

[Chorus]

How you know?
How you know, how you know, how you know?
How you know?
How you know, how you know, how you know?
How you know?
Tell it to me straight, tell it to me straight
Tell it to me straight
Tell it to me straight, am I too much of a stranger?
Stranger
Her mama said don't talk to strangers, like me
Baby I'm a stranger, stranger
Stranger to you
Baby I'm a stranger, stranger
Stranger to you

[Post-Chorus]

Don't you be ashamed, show your face if you feelin' it
You know it's earlier when we sleep today
Don't you be ashamed, show your face if you feelin' it
You know it's earlier when we sleep today
Took it to the left, we don't slow at all
Wicked wicked rush, we don't stop at all
Took it to the left, we don't slow at all
Wicked wicked rush, we don't stop at all [Verse 1]
We ain't surprised
We do it fine
We-we do it fine
Have you lost your mind, oh?

We-we do it fine
I expected all of this from one of these niggas all around me
Only we live forever, so don't you ever time me
I expected this from all the niggas all around me
Only we live forever, so don't you think 'bout timing me[Chorus]
How you know?
How you know, how you know, how you know?
How you know?
How you know, how you know, how you know?
How you know?
Tell it to me straight, tell it to me straight
Tell it to me straight
Tell it to me straight, am I too much of a stranger?
Stranger
Her mama said don't talk to strangers, like me
Baby I'm a stranger, stranger
Stranger to you
Baby I'm a stranger, stranger
Stranger to you[Verse 2]
Your mama said don't talk to strangers
So I creep inside your house
Then I go inside her throat
And what do we do now?
You weren't appreciative
You want a sky, I can only give you clouds
You weren't appreciative
And now you're trippin' like I'm just a little[Outro]
I saw her again, the angel
Mom I saw her again
The one that asked to be free mom
Why can't other kids eat like I eat?
Caroline, that's not how the world works
It's not- goddamnit
Who's putting this fucking shit in your head?
You can't save the world Caroline! but-but-but mom?
Caroline, it's not real
