

The World's Smiling Now

Jim James

Where is this love
Found in the heart of the sun
Raised from the dust of our days
Learned from the error of our ways
Oh is this love
a light in the dark of the world
Well I know you're a dancer, so
Take a hold of my hand
The world's smiling now
Where is this love
Are we just having fun
Are you waiting just for me
Out where the heavens meet the sea
Oh I knew it when we met
That Time stood still
A light in the dark of the world
But I know you're a dancer, just
Take a hold of my hand
The world's smiling now
What a gift for today
But will it always remain
And How long does a good thing last
Can we avoid mistakes from the past
Oh and what if it dies
Just disappears from your eyes
Well you don't have to answer, just
Take a hold of my hand
The world's smiling now
Well I know you're a dancer, just
Take a hold of my hand
The world's smiling now
Oh is this love a light in the dark of the world
OoooOh is this love a light in the dark of the world
OoooOh is this love a light in the dark of the world
