

# I'm Gonna Try

Gavin DeGraw

I'm gonna try  
Try like a mother...  
I'll make this one come around  
Sing all through the night  
Shaking the shutters  
I know she'll be coming down Hear the neighbors calling out names  
Well I can't put up with that  
So I'm gonna try  
Try til I get it back You don't know what she means to me  
My reality and my fantasy  
On the wave of confidence and gin  
Like a hurricane I come crashing in  
But oh man the sun is moving too slow  
Damn I think I'm losing control  
'Cause I just took a flight  
To make it here tonight to say that I...(Pre-)  
I'm gonna try  
Try like a mother...  
I'll make this one come around  
Sing all through the night  
Shaking the shutters  
I know she'll be coming down Hear the neighbors calling out names  
Well I can't put up with that  
So I'm gonna try  
Try til I get it back  
Listen, I'mma tell you once  
From an honest guy who has screwed it up  
Celebrate the one you're with  
A little take and give never hurt no one But oh, now I'm standing out in the cold  
Trying to find the hope that got stole  
'Cause I just took a flight  
To make it here tonight to say that I...(Pre-)  
I'm gonna try  
Try like a mother...  
I'll make this one come around  
Sing all through the night  
Shaking the shutters  
I know she'll be coming down Hear the neighbors calling out names  
Well I can't put up with that  
So I'm gonna try  
Try til I get it back If she replaced my page  
Oh no

I'm tryin to say that's your waste  
And I'm still here  
Would you understand girl?(Pre- x2)  
I'm gonna try  
Try like a mother...  
I'll make this one come around  
Sing all through the night  
Shaking the shutters  
I know she'll be coming downHear the neighbors calling out names  
Well I can't put up with that  
So I'm gonna try  
Try til I get it back
