

# Heartache Medication

[Jon Pardi](#)

Same old dive, same old end of the work week drink  
Bartender knows my name, but I don't mind  
She kicks 'em up strong, serves me up right  
And here I go again  
I'm drinking one, I'm drinking two  
I got my heartache medication, a strong dedication  
To getting over you, turning me loose  
On that hardwood jukebox lost in neon time  
My heartache medication, well it suits me fine  
And I'm drinking enough to take you off my mind  
I got my heartache medication  
Another girl, another dance to a country song  
Turning me on, here's to a good time  
And halfway to feeling all right  
And here I go again  
I'm drinking one, I'm drinking two  
I got my heartache medication, a strong dedication  
To getting over you, turning me loose  
On that hardwood jukebox lost in neon time  
My heartache medication, well it suits me fine  
And I'm drinking enough to take you off my mind  
I got my heartache medication  
Single drinking doubles  
Teardrops turning into bubbles  
Yeah, a little later on  
I'll probably find me some trouble  
And here I go again  
I'm drinkin' one, I'm drinkin' two  
I got my heartache medication, a strong dedication  
To gettin' over you, turnin' me loose  
On that hardwood jukebox lost in neon time  
My heartache medication, well it suits me fine  
And I'm drinkin' enough to take you off my mind  
I got my heartache medication  
Heartache medication  
Takin' me away, oh whoa
