

# I Want the World to Stop

## Belle and Sebastian

I want the world to stop (I want the world to stop)  
Give me the morning (give me the understanding)  
I want the world to stop (I want the world to stop)  
Give me the morning, give me the afternoon  
The night, the night Let me step out of my shell  
I'm wrapped in sheets of milky winter disorder  
Let me feel the air again, the talk of friends  
The mind of someone my equal I want the world to stop (I want the world to stop)  
Give me the morning (give me the understanding)  
I want the world to stop (I want the world to stop)  
Give me the morning, give me the afternoon  
The night, the night  
Tinseltown has followed me from Tinseltown to  
Grey adorable city by the docks  
Girls will walk in moving air the sun hangs low the girls don't care  
As they paint themselves at dusk.  
I want the world to stop (I want the world to stop)  
Give me the morning, give me the afternoon  
The night, the night Towns' and cities' populations up and grow  
The workers move to the suburbs  
In between I watch and go  
I run along side rush hour traffic a prayer for every car I want the world to stop (I want the  
world to stop)  
Give me the morning (give me the understanding)  
I want the world to stop (I want the world to stop)  
Give me the morning, give me the afternoon I want the world to stop (I want the world to stop)  
Give me the morning (give me the understanding)  
I want the world to stop (I want the world to stop)  
Give me the morning, give me the afternoon  
The night, the night  
I want to write a message to you  
Everyday at 10 o'clock in the evening  
Yellow pearl my city is  
This is your art, this is your Balzac, your Brookside and your Bach.
