

Fadeout (feat. Iamsu!)

Kristinia DeBarge

Like the fire boy, let me be blind with you
Go ahead and roll up,
You got that fadeout make a girl wanna blow with you
Go ahead and roll up,
I wanna take you, take you to my list you dream
Go ahead and roll up,
So won't you lay back, lay back watch me do my thing
But inhale you, then I fadeout fadeout fadeout
Must've been a smoke cloud, smoke cloud smoke cloud
Boy you got that fadeout fadeout fadeout
Get heavy in this hot bass, all night baby don't stop
Boy you got that fadeout
You make me, make me fadeout
You make me, make me fadeout Fake ass, make the niggas played out
Get it one time from the back till you fadeout
Going in asap, never stayed out
If she start to bugging I'ma have to put the radar
Uh??? the best from the west, respect the side
I'm the type that you get the address request to arrive
Bring it to the hotel, make it testify
Like Doug, screaming out God!
Ain't speak hell out of my squad
Low line front till we hit the floor
I just may like six figures on tour, oh
And I'm down spending all, too
Looking for the turn up, yeah you better cross too
She got a click for the homies to fall through
Yeah, get high, get drunk
But inhale you, then I fadeout fadeout fadeout
Must've been a smoke cloud, smoke cloud smoke cloud
Boy you got that fadeout fadeout fadeout
Get heavy in this hot bass, all night baby don't stop
Boy you got that fadeout! You make me, make me fadeout
You make me, make me fadeout In my chest let it burn, set this love a place
Go ahead and roll up,
It's you and me, no one else in this rotation babe
Go ahead and roll up,
I wanna take you, take you to my list you dream
Go ahead and roll up,
So won't you lay back, lay back watch me do my thing
But inhale you, then I fadeout fadeout fadeout
Must've been a smoke cloud, smoke cloud smoke cloud

Boy you got that fadeout fadeout fadeout
Get heavy in this hot bass, all night baby don't stop
Boy you got that fadeout You make me, make me fadeout
You make me, make me fadeout
