

# Get It In (feat. Jung In)

## Drunken Tiger, YOON MI RAE & Bizzy

On the news today they said that  
something was wrong,  
I've been working all day  
I can't wait to get home.  
We can party all night  
It's back to work in the morning,  
It's on and It's onExit when I come through the entrance,  
Reckless better run I'm mentioned  
And when I enter smooth as a ninja,  
Spit it out cool as the cold in the winter  
I remember we used to be pretenders  
a couple of friends didn't make it  
in this adventure  
Just know one day I will avenge ya'  
a couple of shots at the bar  
won't really kill ya',  
Bartender the one with  
the windsor pop the champagne,  
Cause I'm feeling like a winner,  
I know we lose sometimes  
or get injured and models  
throwing up at night to get thinner,  
But the world keeps spinning like a windmill,  
Whatever happens keep it  
colder than a wind-chill,  
Until then just know we gone win still,  
You just another dead bug  
on my windshield, Splat!  
deo isang oeropji anheun gose  
motda pin kkochi pineun gose  
Where Can I Go  
nan geugoseul hyanghae I Go oneul bamAnd we can get it in in,  
Tell me where can I find,  
I wanna go to a place that's mine all mine  
Where can I go (go go go go)  
to a place place that's mineAnd We Can Get It In In In In In  
And We Can Get It In In In In In  
And We Can Get It In In In In In  
And We Can Get It In In In In In  
It's so chaotic, Psychotic  
that's what the problem is  
I do acknowledge but things

ain't looking too positive  
It's so obnoxious I promise  
it's just a pile of shit  
But we can hustle and party  
until the cows come in  
deo isang oeropji anheun gose  
motda pin kkochi pineun gose  
Where Can I Go  
nan geugoseul hyanghae I Go oneul bam And we can get it in in,  
Tell me where can I find,  
I wanna go to a place that's mine all mine  
Where can I go (go go go go)  
to a place place that's mine And we can get it in in,  
Tell me where can I find,  
I wanna go to a place that's mine all mine  
Where can I go (go go go go)  
to a place place that's mine On the news today they said that  
something was wrong,  
I've been working all day  
I can't wait to get home  
We can party all night  
It's back to work in the morning,  
It's on and It's on (I don't speak your language) (And We Can Get It In)
