

# Stay (feat. BJ the Chicago Kid)

## Goapele

Since the day I saw you babe, distractions are on a daily basis.  
All that's running through my mind is your face.  
You know I don't trust easily but this is all I'll ever need just turn the lock & you've always had  
the key So won't you just stay a little longer? Love a little stronger? Right here's where you  
belong, with me.  
So won't you just stay a little longer? Love a little stronger? Right here's where you belong,  
with me.  
The world outside is tempting place, can't compare or can replace.  
What we have is something so unique. Life will throw us crazy things but my love stands still,  
it remains.  
If I lost it all, you're all I need. So won't you just stay a little longer? Love a little stronger?  
Right here's where you belong, with me  
So won't you just stay a little longer? Love a little stronger? Right here's where you belong,  
with me  
I'm not perfect  
I'm yours (baby you belong with me)  
Baby you're mine.  
Given you my everything  
Baby you ain't seen the rest of me.  
Baby give it to me don't stop  
I don't wanna rush a thing & I ain't gonna run away cause in this moment there is no one else  
around  
So won't you just stay a little longer? Love a little stronger? Right here's where you belong,  
with me  
So won't you just stay a little longer? Love a little stronger? Right here's where you belong,  
with me
