

So Far Gone

Thousand Foot Krutch

I know they say that the space between
Can make it stronger than we've ever seen
They might be right but I disagree
Cause I've never felt stronger than when you're with me
Sometimes I wonder why you even care
Cause even when I leave you're always there with me
And like a candle makes a brighter place
This mark you've made on me can't be erased
I wanna be so far gone in you
So far nothing else will ever do
I wanna be so far gone in you
In you. I've stood alone and I've fallen down
Your hands were there to pick me off the ground
Sometimes I cry cause I can't believe
Your love is big enough to cover me
Sometimes I've wondered if you're even there
But when I feel far away you meet me there
And like a candle makes a brighter place
This mark you've made on me can't be erased
Yeah. I wanna be so far gone in you
So far nothing else will ever do
I wanna be so far gone in you
In you. I wanna be so far gone in you
So far nothing else will ever do
I wanna be so far gone in you
In you. I wanna be lost I wanna be lost in you
Like a ship in the night
I wanna get lost in you
Underneath your sky
I wanna be lost in you
Like a ship in the night
So far gone tonight I wanna be so far gone in you
So far nothing else will ever do
I wanna be so far gone in you
In you So far gone in you
In you
In you
So far gone in You
