

Get Away

George Ezra

He's dreaming of a blacked out car
Screaming "move over"
He'll be flying through the sugar canes
Screaming "move over"
Any boy can dream
Dream of anything
Just like you It's never been this way before
Shut down by anxiety
It's never been this way before
You better get away, boy
You better get away
I'm running down a mountainside
When I close my eyes
I'm the leader of a big brass band
When I close my eyes
Any boy can dream, huh-huh
Dream of anything
Just like you It's never been this way before
Shut down by anxiety
It's never been this way before
You better get away, boy
You better get away And I'm moving on
Like a lightning bolt
Get away! Any boy can dream, huh-huh
Dream of anything
Just like you
It's never been this way before
Shut down by anxiety
It's never been this way before
You better get away, boy It's never been this way before
Shut down by anxiety
It's never been this way before
You better get away, boy
You better get away
You better get away, boy
You better get away
You better get away, boy
You better get away
