

# R.I.P. SCREW

## Travis Scott

Ya' know?(South Side)  
Rest in peace to Screw, tonight we take it slowly  
(I gotta let you know, the way)  
(I gotta let you know, the way)  
(I'm gonna take it all and clean it)  
(I'm gonna take it all and spend it)  
(South Side)And that's all I've been sayin'  
(South Side)  
If you fall for the games, then you're the one playin'  
Because it's too much money out here  
And there's too many honeys out here  
Feel like a trip off the drank, that's weird  
Feel like a trip off the drank, that's weird  
Rest in peace to Screw, tonight we take it slowly  
Oh, my God, I just can feel the love  
Drop top with the windows up  
Jump inside, oh, won't you roll with us?  
Make the devil bite the angel dust  
Shawty, shawty, please  
Shawty would you go?  
Shawty what you like?  
Tell me what you want  
Rest in peace to Screw, tonight we take it slowly, yeah  
I just took a four to the head like "mane"  
Drop the top on the slab, like "mane"  
Off the top of the dome like "mane"  
Nothin' beatin' home like "mane"  
And the Screw tapes on like "mane"  
I go Pimp C on the phone like "mane"  
Flip side platinum don't do chrome like "mane"  
Had the south side fade, now let the braids hang  
This shit S.U.C smooth like "mane"  
Rest in peace, Screw, like "mane"  
Rest in peace to Screw, tonight we take it slowly  
Oh, my God, I just can feel the love  
Drop top with the windows up  
Screw found international sound because—  
Throughout the South, and it's new to, um...  
Shawty got a thing for us
