

# Love Never Died

Nytrix

feeling the moment  
feeling the way that I'm alive  
and we go way back  
back to when it was you and i  
and i can feel you  
feeling you on my skin  
and maybe  
we can learn to love again  
and the love never died  
never died  
can't stop running  
running from all my fears  
after loving  
loving you all these years  
its never ending  
always takes me back in time  
and i want you  
you for one more night  
and the love never died  
never died
