

# Spaceface

## Simple Minds

she don't need no rocket ship (rocket ship rocket ship)  
just close her eyes and takes a trip  
baby's big on aviation (aviation aviation)  
baby loves a levitation (levitation)  
yes shes a spaceface going round  
shes never coming down (coming down coming down)  
my little spaceface floating round  
shes never coming down (coming down)  
never coming down  
never coming down (coming down coming down)  
baby's talking to the stars  
aint got time for idle wars (space space space)  
and i don't worry anyway  
as long as i know shes ok (shes ok)  
yes shes a spaceface floating round  
shes never coming down (coming down)  
my little spaceface floating round  
shes never coming down (coming down coming down)  
shes a spaceface floating round  
shes never coming down (coming down)  
my little spaceface floating round  
shes never coming down (coming down coming down)  
never coming down (coming down)  
dont know what you see  
i'll be there if you wait for me  
i will soon be home  
i'll be there if you're not alone  
ah spaceface  
my little spaceface  
ah spaceface  
never falling down  
never falling down  
yeah, shes a spaceface floating round  
shes never coming down (never coming down)  
my little spaceface floating round  
shes never coming down (never coming down)  
never coming down  
never coming down  
never coming downshe never coming down  
never coming down
