

Relax

Rezz

Just take a nice breath in
Exhale that breath
Just allow yourself now t? relax more and more
Because the nicest thing ab?ut hypnosis
... is that wonderful feeling ?f physical and mental relaxation
That can now spread througout y?ur entire body
Because fr?m this moment in time
There's nothing, nothing but important for y?u to do except relax
Relax!

Just take a nice breath in
Exhale that breath
Just allow yourself now t? relax more and more
Because the nicest thing ab?ut hypnosis
... is that wonderful feeling ?f physical and mental relaxation
That can now spread througout y?ur entire body
Because fr?m this moment in time
There's nothing, nothing but important for y?u to do except relax
Relax!
