

Fingers Crossed

Maxwell

Cross your fingers babe
Take your time don't stress about the minor things
If it wasn't meant to be
Maybe your love is just a big mistake
Maybe your love is just a world away
If you get the courage baby
One day, someday, probably, maybe you'll be mine, oh my
Let me love you all night, all night,
All night
Cross your fingers babe
I know sometimes your love is pessamitic
Oh baby, baby
Maybe your love is just a big mistake (big mistake)
Maybe your love is what you fabricate
If you never curb it baby, something maybe bothering you
You'll be mine
You'll be mine, mine, mine
Tonight mine
Have no time
Cross your fingers babe
I know sometimes your love will only trick your head
Oh why would you let this go by
They would tell you anything to change your mind
There's no mistery and you my plight
Fingers crossed you'll make the choice to make you mine
Make you mine, oh
Make you mine
Someday, baby, probably, maybe, you can do it baby
You will be mine,
Oh my, oh my, oh my, oh my
Baby you'll let me be yours
Someday, maybe, probably, baby
Maybe, someday, probably, baby
If you get the courage lady
You'll, if you
This is just for you
Fingers crossed for you
