

Only One

The Score

Tell me can you see me now?
While you were busy lost in the crowd
I was busy making myself-elf
Into someone free from doubts
I was down and left on the shelf
I wanted a story to tell-ell scream it to the people
Started calling (calling)
Sing it with the people that are falling (falling)
Down, down
Now, now
It's time to breakout
So everybody just scream out
I'm the only one (I'm the only one)
I'm the only one
No chains, no chains won't make me break down
And I can finally see now
I'm the only one (I'm the only one)
I'm the only one
No chains, no chains won't hold me down Tell me how it feels to know
I'm not a puppet under control
I cut the strings a long time ago, oh
I guess that I should thank you though
'Cause all you was the fire for my soul
And now I'm up here running the show-ow
I scream it to the people
Started calling (calling)
Sing with it people that start falling (falling)
Down, down
Now, now It's time to breakout
So everybody just scream out
I'm the only one (I'm the only one)
I'm the only one
No chains, no chains won't make me break down
And I can finally see now
I'm the only one (I'm the only one)
I'm the only one
No chains, no chains won't hold me down No chains, no chains won't hold me... And when the
dust is settled down
You'll be all alone thinking, "how?"
Everyone is singing aloud It's time to breakout
So everybody just scream out
I'm the only one (I'm the only one)

I'm the only one
No chains, no chains won't make me break down
And I can finally see now
I'm the only one (I'm the only one)
I'm the only one
No chains, no chains won't hold me down
