

# Energy (feat. Stormzy & Skepta)

Avelino

Yo, yo, 'llo that yout'  
He's a hater, I don't want no bad energy  
Man get views but I Ray Charles  
'Cause I can't see my enemies  
I like all types of girls  
Melanins and Melonies  
She wants a man from London  
She wants a fella with felonies  
That's probably all my team  
There's no I in it, I'm bringing all my team  
Gassed when they saw my team  
Even the bouncers bounced when they saw my team  
Who d'ya wanna holla? Who d'ya wanna never know?  
Don't be a sheep when you can be the GOAT  
Greatest of all time? Man, you never know  
Don't show up to my show if you've got no (Energy)  
Energy, energy  
Energy, energy Alright, okay, 'llo that yout', he's a fuckboy  
I don't want no bad energy  
I shell-shell-shell on the mic  
Now these little boys wanna put a shell in me  
Pure blood in my bloodline  
You are not part of my pedigree  
These niggas heard a nigga's getting bread  
Now they see me on the street and start breeding me  
Hurt but I heal my wounds, real life goons  
These niggas steal my tunes  
So much dough just lying in my crib  
I find too much money when I clean my room  
Tenner on the side, pinky in my top drawer  
Rich in my faith, I could never be poor  
Why bang a hammer when you can be Thor  
Don't pull up to my tour if you've got no (Energy)  
Energy, energy  
Energy, energy  
No bad energy, no bad energy  
No bad energy, energy Mmm, step in the party, move fresh in GALANNI  
Got a pocket full of weed and cash  
Bouncers wanna power-trip at the front  
So my niggas have to creep through the back  
Storm' put the heat on the track  
Worldwide, yeah, we put the streets on the map

We're the kings, haffi salute the kings  
'Oi king, what d'ya mean, who's that?'  
We should have never gone away  
That's Av' the top boy, the top man days  
Got fans from St. Anne's to Holloway  
Another black millionaire on the way  
No gas, every day's a holiday  
Don't chat, already know what you're gonna say  
It's hot, yeah, hot like a summer's day  
So don't show up to my show if you've got no (Energy)Energy, energy  
Energy, energy  
No bad energy, no bad energy  
No bad energy, energyEnergy
