

# I Dream of Spring (KCRW - Live from Malibu PAC)

[k.d. lang](#)

She arrives like autumn in a rainstorm  
The threat of thunder above  
I'll return from the streets of Melbourne  
I'll return my love This world is filled with frozen lovers  
The sheets of their beds are frightfully cold  
And I've slept there in the snow with others  
Yet loved no others before These cold dark places, places I've been  
In cold dark places, I dream of spring This world is filled frozen lovers  
The sheets of their beds are frightfully cold  
And I've slept there in the snow with others  
Yet loved no others before  
These cold dark places, places I've been  
In cold dark places, I dream of spring  
In cold dark places, I dream of spring
