

We Belong (feat. Katie Herzig)

RAC

We belong to where we're going
Where we're going, where we're going You belonged to my heart
Before you came
Just an ache in my chest
The blue in my veins
Oh so easy to feel you
So that's what I come to
But nothing seems real til
You touch who you're meant to
Be until you came to me
Until it came to be
Until I came to see
Until you came to me There's a way that you look me straight in the eyes (eyes) Only last for a
moment, it last through the night
It's so easy to hold you
You're so easy to mold to
It's a dream to be close to you
Didn't know you were meant for me Be until you came to me
Until it came to be
Until I came to see
Until you came to be
We belong to where we're going
Where we're going, where we're going We belong to We belong to where we're going
We belong to where we're going
Where we're going, where we're going
