

The Kill

Joy Division

Moved in a hired car and I find no way to run
Adds every moment longer had no time for fun Just something that I knew I had to do
But through it all I left my eyes on you I had an impulse to clear it all away
Oh I used the tactics make everybody pay Just something that I knew I had to do
But through it all I kept my eyes on you Oh I keep it all clean I've paid the graces there
No kings of misuse no sellers of flesh Just something that I knew I had to do
But through it all I kept my eyes on you
Yeah through it all I kept my eyes on you
But through it all I kept my eyes on you
