

# Tonight

## Summer Walker

Gotta get it right  
I gotta get it right, yeah  
You say, you say  
You say, you say  
You?say,?you say  
You wanna?search in this body of mine  
Do?you wanna be a good friend to me?  
Why won't you pour up that Hennessy?  
Light up a few blunts and we can get high  
No need to rush, but take your time  
I know it's been too long  
I've been on the road too much  
Had to get back to ya, back to you  
Can't even play it cool  
Thinkin' of all them nights I would've rather been with you  
Tonight, I wanna have some good fun tonight  
I wanna get into something tonight  
I just wanna make up for lost time  
I like to taste it when you run down my back  
Arched and relaxed  
Oh, touch me like that  
Please, nice and slow  
I know it's been too long  
I've been on the road too much  
Had to get back to ya, back to you  
Can't even play it cool  
Thinkin' of all them nights I would've rather been with you  
Tonight, I wanna have some good fun tonight  
I wanna get into something tonight  
I just wanna make up for lost time tonight  
I know it's been too long  
I've been on the road too much  
Gotta get back to ya, back to you  
We got London On Da TrackReport a problem
