What I Need

Crystal Waters

I said I'm tired and lost I said I'm sick and tired I'm tired of feeling the sameWell, I've been searching Been looking so long Forgot what the hell What I was looking forUptight, nothing right Can't sleep, can't eat All night in bed I cry Need somebody by my sideI feel my heart and soul I feel the beat I wish someone would give me What say? What say? What I need, I need What I need, I need I need something to come over me Lift me up and set me freeSomeone who can give me What I need, I need What I need, yeahI said I'm lonely And I don't believe I've been waiting long For someone to believe inBut I been talking Been talking so long I forgot what the hell What I was talking 'bout I'm uptight, nothing right Can't eat, can't sleep All night in bed I cry Need somebody by my sideI feel my heart and soul I feel the beat I wish someone would give me What I say, what I say What I need. I need What I need, I needI need something to come over me Lift me up and set me free Someone who will give What I need, I need What I need, I needI need something to come over me Lift me up and set me free Someone who will give What I need, I need What I need, I needI said I'm uptight, nothing right Can't eat, can't sleep

All night in bed, I cry Need somebody by my sideI feel my heart and soul I feel the beat I wish someone would give me What I say, what I sayI said I'm uptight, nothing right Can't eat, can't sleep All night in bed, I cry Need somebody by my sideI feel my heart and soul I feel the beat I wish someone would give me What I say, what I say I said I'm uptight, nothing right Can't eat, can't sleep All night in bed, I cry Need somebody by my sideI give my heart and soul I give 'em me I wish someone would give me What I say, what I sayWhat I need, what I need, I need I need something to come over me Lift me up and set me free Someone who will give What I need, I need What I need, yeahI need, what I need I need, I need What I need, I need I need, I need What I need, I needI need, I need What I need, I need I need, I need What I need, I need
