Do or Die

Hardline

Everybody's thinking something Everybody thinks what is right is wrong I can't take it another minute I won't make it I'm tired of being strong See you look out from the inside(Refrain:) Feeling do or die Someone give me just a reason why we Do or die Taking cover on the streets at night Feeling feeling do or dieCan you save me Can you praise me Can you see me under glowing light I can't take it another minute I won't fake it I'm not strong to fight Can you face me from the outside (Refrain)
