

# It's Alright

Brandon Heath

Tiny boat on an angry sea  
Sails torn and tattered  
How could Jesus be fast asleep  
Like it doesn't matter?  
Soon as He opens His eyes  
The storm just dies  
It's alright, everything will be okay  
You just hold tight, I'll be with you the whole way  
When you're weak, I'll be strong  
Keep going, we're almost home  
It's alright, everything will be okay  
Mother Mary's got a broken heart  
From the words they're saying  
Her baby boy's being torn apart  
By the world He's saving  
He says, Mother, don't cry for me  
You know where I'll be  
It's alright, everything will be okay  
You just hold tight, I'll be with you the whole way  
When you're weak, I'll be strong  
Keep going, we're almost home  
It's alright, everything will be okay, everything will be okay  
No promise of an easy road  
Just a destination  
Next time you forget your hope  
Somebody's waiting  
Soon as you open your eyes, you'll realize  
It's alright, everything will be okay  
Just hold tight, I'll be with you the whole way  
When you're weak, He'll be strong  
Keep going, you're almost home  
When you're weak, He is strong  
Keep going, you're almost home  
It's alright, everything will be okay
