

# I Wrote a Simple Song

Billy Preston

I wrote a simple song  
With simple words and harmony  
Wasn't very long  
Before a star, I was bound to be I didn't care if it made the charts  
I only wrote it for you and me  
They think they're so smart now  
They're not as smart as they want to be They took my simple song, yes, they did  
They changed the words and the melody  
Made it all sound wrong, yeah  
Now it sounds like a symphony  
Who told them to mess with my  
Oh, now, who gave them the right  
I wanna know now  
That song was personal Because I wrote it for you  
It's yours and mine, girl I don't care if it  
Makes the charts, y'all, no  
I only wrote it for you and me They think they're so smart  
Yes, they do  
They're not as smart  
As they want to be  
Who told them to mess with my  
Oh, now, who gave them the right  
I wanna know  
That song was personal Whoa, I wrote it for you  
It's yours and mine Yeah, yeah, oh, oh...
