

What I Be On

Devin the Dude

Folks be trippin' on me, I just be doing my thang
Hoes be liking the way my big ol' nuts hang and swang
People out in public see me smoking on my herb
They want me to sell them some but I must conserve

I be getting by

I be staying focused

I be getting high

I hardly get noticed

I be on my grind

I be on my hustle y'all

I stay on my P's and Q's

My weed and brew (yeah)

Are just the tools that I use

To get me in a good mood

I don't know about you

Everybody got their own niche (yeah, yeah)

Each and everyone of you be on some kind of shit

(who got the weed)

(smoke something)

(who got the weed)

Sometimes I get tipsy, get so high that I forget

That I had enough and I just keep puffing the shit

Alot of times I'm good, though I look fast asleep
