

Ageless Decay

Crowbar

Ancestral malignance
Repulsive revolt
Absorbing the life
To gain self-control
Saturating humanity
With deceptive design habituallyThe procreation continues
With its veil of disguise
Sustaining the burden
Of those in its eyes
Blood in my eyesAncestral malignance
Repulsive revolt
Absorbing the life
To gain self-controlThe procreation continues
With its veil of disguise
Sustaining the burden
Of those in its eyesResist its affliction
Let divinity descend
An epiphany of spirit prevails in the endThe ageless decay
The ageless decay
The procreation continues
With its veil of disguise
Sustaining the burden
Of those in its eyesResist its affliction
Let divinity descend
An epiphany of spirit prevails in the end
