

# Fortitude

## HAEVN

[Verse 1]

You hold it back from us  
No need to hide no more [Chorus]  
And the world's love holds me  
And the world's love holds me [Verse 2]  
I'm gonna walk down the lane of true love  
Not gonna bend or break  
It's in all of us  
Could it be right?  
Could it be right?  
Could it be?

Would it be right if we would stop this fight?

Would it be right if we would stop tonight?

[Chorus]

And the world's love holds me  
And the world's love holds me

[Bridge]

And all I want is you around

All I want is you around

All I want is you around

All I want is you [Chorus]

And the world's love holds me

And the world's love holds me
