

The Curse

Out Came the Wolves

When there's vultures circling
There's a fire underneath
We are the dirt, we are the curse
Burning together
I wont let them kill our dreams we don't owe them anything
We are the dirt, we are the curse
Burning together foreverThe dirt, the curse
No water insight
Too much, too soon
Like a thief in the night
How the hell did we get here?
To the desert of nowhere
I can hear them
I can hear them now
I can see them
I think they're coming down
I can hear them
I can hear them nowWhen there's vultures circling
There's a fire underneath
We are the dirt, we are the curse
Burning together
I wont let them kill our dreams, we don't owe them anything
We are the dirt, we are the curse
Burning together foreverNo more recourse
Like rats in a maze
One path one cage
We all die the same
I can hear them
I can hear them now
I know I hear them nowWhen there's vultures circling
There's a fire underneath
We are the dirt, we are the curse
Burning together
I wont let them kill our dreams we don't owe them anything
We are the dirt we are the curse
Burning together foreverHow the hell did we get here?
To the desert of nowhereWhen there's vultures circling
There's a fire underneath
We are the dirt, we are the curse
Burning together
I wont let them kill our dreams we don't owe them anything
We are the dirt, we are the curse

Burning together forever
