

Love Like Ours (feat. Tarrus Riley)

Estelle

[Verse 1]

He's smiling
and that's because of me
He's happy
I want the world to see
We're living ever happily
yeah

I'm wondering, wondering honestly How could you not see that we are in love?

How could you be talking to talk that stuff?

After all this time now, your feelings stop

Don't hate on us, on us [Chorus]

Looks like you need a love like ours

Then you would know how it feels

Looks like you need a love like ours

You need some happiness still

Looks like you need a love like ours

you need some happiness for real

Looks like you need a love like ours

You need some happiness still [Bridge]

You need a love, love like our own yeah

Love, Love like ours

You need a love love like our own yeah

Don't hate on us [Verse 2]

She's smiling all because of I, yeah

Yours truly, keeps her smiling, hey

You know you had your chance to love her

It's not my fault

They said love is a gamble

Well, you lost

How can you not love how the way we live?

Trying to break everything we built

Can't stop a love so chill

Don't hate on us, no [Chorus (1X)] You need a love, love like our own yeah

Love, Love like ours

You need a love, love like our own yeah

My girlfriend better than you [Bridge 2]

When they can't understand it

I know they really can't stand it

She gives me loving at the mornin

and ev'n at the evenin

anytime you can have it Loving you is sublime

Oh yes you got me feeling alive, girl

and we don't have to try
That's why I love her
That's why I love him Chorus (1X) You need love, love like our own yeah
You need a love, love like ours
You need a love, love like our own yeah
don't hate on us
