

Wave (feat. Lil Wayne & Jeremih)

Veronica Vega

Oh Lord, have mercy, mercy, mercy
Rude gyal like to party, party, party
Dem all of dem sexy, sexy, sexy
Watch them just to follow me, follow me, follow me, hey True love is a cruel intention, we do it
anyway
Overdose, got a sick intervention, ain't no running away, yeah
A million things I could mention, I might name a few
Make me wanna give it all to the right one, what you doing to me? Got me running right back to
you
Like I'm chasing shooting stars
Coming right home to ya
Like I never go too far
Baby, on nights like this, for the world I wouldn't miss it, oh
And we dance like the water
'Cause step by step, get lost in your love
Inspired, I'm getting closer to you
Every time, can't get enough
Enjoy the ride, hold on tight
We going mash up and match up
The tide go low, we bring it back up
The tide go low, we bring it back up
The tide go low, we bring it back up
Got me on my wave, wave, wave, wave, wave, wave, wave, wave, ayy
Got me on my wave, wave, wave, wave, wave, wave, wave
Got me on the wave, wave, wave, wave, wave, wave, wave, wave, ayy
Got me on the wave, wave, wave, wave, wave, wave, wave
Just on the remix
Smoke somethin', eyes red as a phoenix
Go hard, pint it, baby, meant to see me
I make her go 'bout the wave 'til she seasick
I'll leave her body on some fleek shit, If she lit
I make her leave that boy alone, he don't need me
She nothin' on next to her thongs, I ain't keep them
And I'm so wavey, I'm just wondering does she swim
Okay, Tunechi and Veronica
I couldn't say that shit right there loud enough
That shit sound good to me, I'm not gon' front
You look too good to me, I'm tryna'
Let me stop
Lookin' like a lemon drop, I'm your money echelon
I got more pairs than paperdon but you got more ass than never mind
Hidin' from me servin' time, only she like turbo type

You say you got the waves, baby, I'm just tryna surf inside
Got me running right back to you
Like I'm chasing shooting stars
Coming right home to ya
Like I never go too far
Baby, on nights like this, for the world I wouldn't miss it, oh
And we dance like the water 'Cause step by step, get lost in your love
Inspired, I'm getting closer to you
Every time, can't get enough
Enjoy the ride, hold on tight
We going mash up and match up
The tide go low, we bring it back up
The tide go low, we bring it back up
The tide go low, we bring it back up
Got me on my wave, wave, wave, wave, wave, wave, wave, ayy
Got me on my wave, wave, wave, wave, wave, wave, wave, oh, oh
Got me on the wave, wave, wave, wave, wave, wave, wave, ayy
Got me on the wave, wave, wave, wave, wave, wave, wave, oh, oh
Oh Lord, have mercy,
mercy, mercy
Rude gyal like to party, party, party
Dem all of dem sexy, sexy, sexy
Watch them just to follow me, follow me, follow me, hey
Oh Lord, have mercy, mercy, mercy
Rude gyal like to party, party, party
Dem all of dem sexy, sexy, sexy
Watch them just to follow me, follow me, follow me, hey
