

Bounce

The Cab

The lips that slip
Are the lips that press
And the lips that leak
Seem to know you best I put bodies into motion
Keep this skin out in the open
Liars turn me on Bedsread bandit since '89
You wear your heart on your sleeve
I threw mine to the sky
Bounce bounce baby, bounce back to me
You don't need this
Bounce bounce baby, bounce back to me
You don't need this
This is it, call it quits with honesty
You don't need this
Every word is a curse let loose on me
Your mouth, it moves but fails to speak
And when you use your lips they better be on me The lies that tied
Your tongue in knots
Are the words that grew
To hit my spots So filthy, dialed desire
Swallowed pride but spit out fire
Liars turn me on
Bedsread bandit since '89
You wear your heart on your sleeve
I threw mine to the sky Bounce bounce baby, bounce back to me
You don't need this
Bounce bounce baby, bounce back to me
You don't need this
This is it, call it quits with honesty
You don't need this
Every word is a curse let loose on me
Your mouth, it moves but fails to speak
And when you use your lips they better be on me Bounce bounce, baby
(Bounce bounce, baby)
Bounce bounce, baby
(Bounce bounce, baby) So filthy, dialed desire
Swallowed pride but spit out fire
Liars turn me on Bounce bounce baby, bounce back to me
You don't need this
Bounce bounce baby, bounce back to me
You don't need this
This is it, call it quits with honesty

You don't need this
Every word is a curse let loose on me
Your mouth, it moves but fails to speak
And when you use your lips they better be on me
