

# Bounce

## The Cab

The lips that slip  
Are the lips that press  
And the lips that leak  
Seem to know you best I put bodies into motion  
Keep this skin out in the open  
Liars turn me on Bedsprad bandit since '89  
You wear your heart on your sleeve  
I threw mine to the sky  
Bounce bounce baby, bounce back to me  
You don't need this  
Bounce bounce baby, bounce back to me  
You don't need this  
This is it, call it quits with honesty  
You don't need this  
Every word is a curse let loose on me  
Your mouth, it moves but fails to speak  
And when you use your lips they better be on me The lies that tied  
Your tongue in knots  
Are the words that grew  
To hit my spots So filthy, dialed desire  
Swallowed pride but spit out fire  
Liars turn me on  
Bedsprad bandit since '89  
You wear your heart on your sleeve  
I threw mine to the sky Bounce bounce baby, bounce back to me  
You don't need this  
Bounce bounce baby, bounce back to me  
You don't need this  
This is it, call it quits with honesty  
You don't need this  
Every word is a curse let loose on me  
Your mouth, it moves but fails to speak  
And when you use your lips they better be on me Bounce bounce, baby  
(Bounce bounce, baby)  
Bounce bounce, baby  
(Bounce bounce, baby) So filthy, dialed desire  
Swallowed pride but spit out fire  
Liars turn me on Bounce bounce baby, bounce back to me  
You don't need this  
Bounce bounce baby, bounce back to me  
You don't need this  
This is it, call it quits with honesty

You don't need this  
Every word is a curse let loose on me  
Your mouth, it moves but fails to speak  
And when you use your lips they better be on me
