

Jodecidal Hotline

Jodeci

Let us take our time to give you something real
A feeling that is right a groove that you can feel
We know what you need a little bit of Jodeci
Lady groove and feel this beat with Jodeci We know what you need a little bit of Jodeci
Lady groove and feel this beat with Jodeci
We show you how to love
We show you how to love somebody We show you how to love
We show you how to love somebody
We show you how to love
We show you how to love somebody
We show you how to love
We show you how to love somebody
