

# Reset (Feat. ??)

Tiger JK

There's an empty world deep in my heart, save me  
I wanna reset , I wanna reset , I wanna reset  
Lonely eyes trapped in darkness  
Is there anyone to hold my hand?  
I wanna reset , I wanna reset , I wanna reset  
Someone somewhere will know my miserable heart  
It's right in front of me but I can't find it like a oriole bird  
I'm flying around by myself in this darkness, in my lonely night  
I'm flying around by myself in this darkness, with a miserable heart  
Why don't you know? Even if I'm a small existence  
Don't trample on me but go with me  
Your careless words and actions break me down  
It corners me, though you deny it  
I'm hiding behind the ridicule, don't look for me  
There's an empty world deep in my heart, save me  
I wanna reset , I wanna reset , I wanna reset  
Lonely eyes trapped in darkness  
Is there anyone to hold my hand?  
I wanna reset , I wanna reset , I wanna reset  
It's just a passing wind  
I try shouting at the person next to me  
But only silence is looking at me  
I am walking too but why are they getting farther apart?  
Why am I standing here alone?  
Why is only my world stopping?  
I see them fading away farther and farther  
I don't care if it's just one person, please look back, please hold my hand  
I don't care if it's just one time, please hold my hand  
Someone please stop for a moment  
There's an empty world deep in my heart, save me  
I wanna reset , I wanna reset , I wanna reset  
Lonely eyes trapped in darkness  
Is there anyone to hold my hand?  
I wanna reset , I wanna reset , I wanna reset  
Your smile that's not ridiculing me  
Finds me again from disappearing  
In the darkness, your smile  
Shines brightly into my heart  
I wanna reset , I wanna reset , I wanna reset  
Your smile that's not ridiculing me  
Finds me again from disappearing  
In the darkness, your smile

Shines brightly into my heart  
I wanna reset , I wanna reset , I wanna reset  
How about you  
I'm all about you  
I wanna go back to the beautiful days  
reset  
I'm left alone like this, loneliness  
Please hold my hand right now  
I wanna reset  
I wanna reset  
I wanna reset  
The truth is hidden by scars  
I wanna go back to the happy place  
I wanna reset  
I wanna reset  
I wanna reset
