Faster Ride

Cartel

A green light, unkind

No where to go on a one track mind

It's a break down at the wrong time

I'm catching up but I'm still behindWe did it right, we did it right for some time

But I looked up and you were gone

We did it right, we did it right for some time

I couldn't give you what you wantCause you just want to take a faster ride

Lower lows, higher highs

Get it, get it, go until you get it right

And I hope you find it

Cause you just want to take a faster ride

Lower lows, higher highs

But you just got to kiss me one more time

So just kiss me goodbye

A red light, wrong way

I'm just a game that you like to play

It's a hot start to your cold ways

You got bored then you walked awayYou did it right, you did it right for some time

But I looked up and you were gone

You did it right, you did it right for some time

I couldn't give you what you wantCause you just want to take a faster ride

Lower lows, higher highs

Get it, get it, go until you get it right

And I hope you find it

Cause you just want to take a faster ride

Lower lows, higher highs

But you just got to kiss me one more time

So just kiss me goodbye

So now you're moving on (you're moving on)

With no regrets (with no regrets)

But I'm still hanging on (still hanging on)

To every word you said (to every word you said)But you just want to take a faster ride

Lower lows, higher highs

Get it, get it, go until you get it right

But you'll never find it, no Cause you just want to take a faster ride

Lower lows, higher highs

Get it, get it, go until you get it right

And I hope you find it

Cause you just want to take a faster ride

Lower lows, higher highs

But you just got to kiss me one more time

Just kiss me goodbyeSo just kiss me goodbye
